**Report Of The Committee On Temperance And Gambling**

MOTION FOR A EUROPEAN PARLIAMENT RESOLUTION  
on online gambling in the internal market  
(2012/2322(INI))  
The European Parliament,  
– having regard to the Commission Communication of 23 October 2012 entitled 'Towards a comprehensive European framework for online gambling' (COM(2012)045),  
– having regard to Articles 51, 52 and 56 of the Treaty on the Functioning of the European Union (TFEU),  
– having regard to the Protocol on the application of the principles of subsidiarity and proportionality attached to the TFEU,  
– having regard to Rule 48 of its Rules of Procedure,  
– having regard to the report of the Committee on the Internal Market and Consumer Protection and the opinions of the Committee on Industry, Research and Energy, the Committee on Culture and Education and the Committee on Legal Affairs (A7-0000/2013),  
A. whereas, in the absence of harmonisation and with due regard to the principle of subsidiarity, the Member States maintain a range of discretion to regulate online gambling in accordance with their own values and pursued objectives of general interest;  
B. whereas currently the supply of online gambling services is not subject to sector-specific regulation at European Union level, remaining – nevertheless – subject to a number of EU secondary legislative acts;  
C. whereas the Court of Justice of the European Union (CJEU) has confirmed that the provision of games of chance or gambling is an economic activity, which consequently falls within the scope of fundamental freedoms of the TFEU, notably the free movement of services, and any restriction imposed therein must comply with those provided for by the TFEU, notably under Articles 51 and 52;  
D. whereas the risks involved in terms of consumer protection, fraud prevention and law enforcement against illegal activities, such as money laundering and match fixing, require coordinated action at EU level;  
E. whereas it is essential to introduce mechanisms for scrutinising sports competitions and financial flows, along with common supervisory mechanisms at the EU level;  
F. whereas a comprehensive overview of the online gambling market, in terms of information and data regarding domestic and cross-border, intra-EU and global, authorised and unauthorised offers, is currently missing;
